

Dear Ellen,

Project give back has taught me so much, for life and for my community. One of the things you taught me most is how to believe and to have hope. Being apart of Project Give Back was so fun and I learned to give back and to learn about most charities in the world. And to think of all those people who we helped each week with the bucks. I hope I will see you soon, on every year walking down the hall to your new classroom.

Always love,

Samantha
